

E-commerce Operations Intern

Internship Vacancy: E-commerce Operations Intern (Starting September)

 Location: Almere (Hybrid)

 Duration: 5-6 months

 Field: Business, Economics, Marketing, or similar

We are looking for a hands-on and data-driven E-commerce Operations Intern to support our digital sales initiatives. At Valyuu, we're growing fast across multiple sales channels, and we need someone who's eager to learn, analytical, and ready to roll up their sleeves. In this role, you'll work closely with the Head of Digital Sales to optimize pricing, expand channel performance, and help build operational excellence across our sales stack. If you're looking to make a real impact and grow your skills in e-commerce and operations, we'd love to hear from you!

About Valyuu

Valyuu is an embedded re-commerce service provider, dedicated to integrating sustainable buyback and resale programs directly into businesses' customer journeys, both online and in-store. Our mission is to bring the circular economy to life by offering innovative, scalable solutions that reduce waste and drive growth.

Every day, we help thousands of products find a second life, from trade-in devices to resale marketplaces. With our expansion into platforms like Amazon, eBay, Allegro, Backmarket, and more, we are working on pricing automation, performance optimization, and system improvements to stay ahead. Join us at the heart of these transformations!

What You'll Do

- Support daily sales operations across marketplaces and our own platforms
- Analyze sales performance data and develop actionable insights
- Assist in pricing analysis, stock planning, and performance reporting
- Support content accuracy and enhancement by coordinating across tools and teams
- Collaborate with cross-functional teams (customer service, logistics, tech) to optimize workflows
- Conduct market research to support pricing strategies, competitor benchmarking, and new channel opportunities

- Take part in projects like pricing automation, PIM implementation, and new channel launches
- Work hands-on with tools like Excel/Sheets, dashboards, and e-commerce platforms
- Test and help implement new tools or workflows

Who You Are

- Currently studying Business, Marketing, Economics, or a related field (HBO/WO level)
- Strong analytical skills and a data-driven mindset
- Comfortable with Excel/Google Sheets and learning new tools quickly
- Hands-on mentality with a natural drive to solve problems
- Proactive mindset, and eager to take ownership
- Fluent in English (Dutch is a plus)
- Available for at least 4 days a week starting September 2025, or asap

What We Offer

- A fast-paced internship with high learning potential and visible impact
- A front-row seat in one of the most exciting circular economy scale-ups
- Lots of ownership and the chance to make real impact
- A chance to contribute to circular commerce and sustainable innovation
- Hybrid working setup with an inspiring office in Amsterdam
- Internship compensation
